## **2. INTRODUCTION OF NEW ACADEMIC COURSES:**

The college introduced two certificate courses one in translational proficiency and other in Clinical Studies and Data management.

## **3. INNOVATIONS IN CURRICULAR DESIGN AND TRANSACTION**

Even though the curriculum is designed by the University, teachers have been afforded in its implementation. Several departments are represented in the syllabus framing committees, staff members are also members of Board of Studies and Faculty of Science/Arts. As a result, the college plays an important role in designing the curriculum and thus providing the required inputs for required changes and modifications. The teachers plan their lessons and

regularly update their information through participation in seminars/workshops and refresher courses.

In addition to student oriented teaching methods which are interactive, guest lectures are organized to bring in additional academic excellence into the system.

To promote the relation between industry, other research institutes and our college, eminent speakers are invited to deliver lectures on various topics. To encourage research activities, some meetings are arranged with research workers sharing the same field of interest.

A list various lectures organized during the academic year 2010-11 is given below:

## GUEST LECTURES

## **12. INTERNAL RESOURCES GENERATED**

The new fee structure has provided means of collecting utility and development fees which would take care of various activities concerned with student support and progress. Self Financing Courses have eased the problem of resources due to a separate fee structure and some of the infrastructural facilities generated from these sources are also utilized by all other students.

As the College is located very close to the railway station, many external agencies approach us for conducting professional examination on Sunday and holidays. The College permits the conduct of CA, ICWA, MAT, PMT, (CET) examinations. It is also beneficial to the teaching and non-teaching staff of the College, since they get extra training on the know-how of these examinations. ICWA conducts its contact lectures on our premises, after 7 p.m. Walk-in interviews for leading companies like Ranbaxy are held in our campus.

Funds have been generated through development grants from UGC, under the 9th & 10th plans. This fund is restricted not only to undergraduate section, but can be utilized for P.G.

Section in the Depts. of Chemistry, Zoology, Botany etc. Recently to improve infrastructural facilities the DST has allocated funds under the FIST Programme.

Department of Computer Science offers facility of Book Bank to B.Sc. final year students. Books worth Rs. 2000 are provided to each student. Internet facility (ISP–MTNL) is also available to the students.

“Earn and Learn” facility is provided to the needy students by many departments.

Some faculty members have acquired higher degrees

### **30. DEVELOPMENT PROGRAMME FOR NON-TEACHING STAFF:**

Workshops were conducted on team building, computer literacy, stress management and values.

**31. ANY OTHER RELEVANT INFORMATION THE INSTITUTE WISHES TO ADD.**

As mentioned in last years report our ISO certification has been renewed. Our college conducted workshops on RAR for neighboring colleges. We had our academic and administrative audit for the year 2010-2011. A National seminar on sharing of Best practices was organized by IQAC.

*In 2011-2012 the following milestones are set:*

- ✓ Establishment of a rain water harvesting system
- ✓ International seminar in Hindi
- ✓ Training of teaching staff in usage of teaching aids.
- ✓ Beautification of the street outside the college and promotion of eco friendly ways through participation of the community.
- ✓ Security of college students and assets by installing CCTV
