Mcom Part I - Sem I & II

THE PREAMBLE

Why Commerce?

Commerce is as old as human civilization. Since ancient times commerce has been practiced all over the world, but the nature of commerce has changed over the years with the changes in economies around the world. Thus, it has become an inseparable part of everyone's life. Human wants are unlimited and becoming multiplied with social and economic developments. Commerce has the capacity to satisfy our needs and provide better life to society and human beings as it encompasses business, profession and employment. The scope of commerce is broader than any other subject because it deals with several human activities like marketing, banking, transportation, management, investments etc. Globalization has brought many countries close to each other indicating the need of trade and commerce between different nations for sharing resources, mutual development, updating know-how etc. Policies of the Government of India like 'Ease of doing', 'Atma Nirbhar Bharat', 'Start ups', 'Digital India' have encouraged new entrepreneurship in India in the 21st century.

The Indian economy is one of the fastest growing economies in the world. A goal of 5 trillion Indian economies in near term would expedite trade and commerce transactions. This has made learning of commerce indispensable, even if it is occupied in every field whether it is science, engineering, or IT. It develops skills and knowledge required for pursuing multiple career options. Students get a wide range of subject knowledge such as finance, marketing, management, accounts, advertising, law etc. which will be useful for them for pursuing their higher studies, employment or starting their own venture. Thus, commerce without human and business life will be next to impossible.

Under autonomy, the department has made curriculum more robust by incorporating skill based learning and value-added courses that impart practical knowledge of the subject to the students. The syllabus for commerce for all four semesters is meticulously designed so as to make the students understand the knowledge of different fields like Strategic management, Rural marketing, Logistic management, HRM, Research Methodology, Tax, Financial Accounting, Management, Global economics. The course contents are updated so as to keep students in line with trends in industry. The course contents are designed to improve student's employability and skills required for employability.

Mcom Part I - Sem I & II

PROGRAMME OUTCOME (PO): M.COM (ADVANCED ACCOUNTANCY AND BUSINESS MANAGEMENT)

PO1	Deepen the understanding of business operations and enhance the skills in effectively managing enterprises, placing particular emphasis on Business Administration. Additionally, concentrate on advancing your expertise in Advanced Accounting and Taxation techniques.

Mcom Part I - Sem I & II

PAPER PATTERN

Teaching and Learning Process

The teaching learning process in the learning outcomes based curriculum framework in the subject of Commerce is designed to develop the cognitive skills of every learner. The Post graduate courses offer the requisite skills for a profession and jobs in the Commerce field . All courses have practical's as an integral part which promotes the learner to acquire the requisite skills for employment by experiential learning.

An interesting combination of teaching learning processes is adopted in which the teacher and learners are actively involved.

Some of the salient teaching learning process are:

- Class lectures
- Presentations
- Group Discussion and Workshops
- Peer teaching and learning
- Flipped classroom, project-based learning, quiz, seminars, exhibitions, posters
- Practical experimental design planning, analysis, interpretation, application of knowledge gained, field projects, mini projects.
- Technology enabled self-learning.
- Internships, On job training
- Project work

The effective teaching strategies would address the requirements of learner to learn at their own pace. The teaching pedagogy adopted to ensure inculcate higher order skills in the learner. The entire program is also designed to foster human values, environmental consciousness for an equable society. The teaching learning processes adopted would aim at participatory pedagogy.
